

Amendments to the Specification

Replace the paragraph on p. 6, lines 12-13 with the following replacement paragraph:

Fig. 2 is a schematic diagram illustrating the layers of the wrapper architecture application 40 of an embodiment of the present invention.

Replace the paragraph beginning on p. 6, line 26 with the following replacement paragraph:

The database call interface 58 such as the Oracle Call Interface, is the communications interface to the database. Finally, the database functions 60 are functions which are intrinsic to the database. The database call interface 58 and database functions 60 are not part of the wrapper application 40, but are shown for completeness.
